

I miei amici italiani!

The tempo is now increasing. Our innate and basic freedoms are restricted one step at a time. Politicians are introducing fascist vaccine passports to fully control us citizens. The Nazi leadership of the European Union has obstructed EU parliamentarians from entering the European Parliament itself. On a broad front, democracies are now being converted into totalitarian regimes based on rigorous surveillance of the population. Our guaranteed freedoms are gradually being obliterated and erased.

Based on the globalists' instructions, politicians are tightening the thumbscrews. They are trained to mislead their own citizens – to betray and deceive. The World Economic Forum is together with the World Health Organization, the United Nations and Big Pharma now ruling the world of health. Pfizer requires some countries to pay for their Covid-19 vaccines, in the form of military bases. What kind of company might want to get paid in the form of military equipment and installations? Yes, a mafia company! Compared to Big Pharma, La Cosa Nostra seems to be a kindergarden.

Vaccine buyers are not guaranteed any pure vaccines at all, but the vaccine vials are poisoned with graphene oxide and other toxins and chemicals. The now ongoing large phase-3 studies include smaller secret studies – different vaccine vials contain different substances, something that the pharmaceutical companies do not inform the buyers about. The contents of the vaccine vials are also contaminated with harmful parasites and microorganisms. The same applies to medical products for tests, PCR-tests et cetera. A large proportion of the civilian population must obviously be exterminated, and those who do not die soon enough must be meticulously controlled.

Children are also injected with the deadly poisons. Compulsory vaccination of children has been going on for a long time – even here in Italy, and now the state is doing what it can to ensure that as many parents as possible will allow their children to be injected, into their small bodies, with poisonous Covid-19 vaccines. These vaccines are already given to children as young as five years of age. Studies on even smaller children are underway, and Big Pharma is now planning these vaccines for children younger than one year.

In many countries, people are now not allowed to buy food, unless they have a vaccine passport. Citizens are also prohibited from working and travelling, unless they are fully vaccinated. Unvaccinated individuals are prohibited from visiting hospitals, medical clinics and pharmacies. In many countries, citizens are even prohibited from staying outdoors. It would not surprise me if deceased citizens, who do not have a vaccine passport, will soon be banned from getting a decent funeral.

The people must get rid of the politicians who have harmed citizens. The people must indict and prosecute those responsible. One or a few demonstrations is not enough, but this one is a good start.

You may have to fill the square in front of the Parliament and the Senate in Rome, every day, for many months from now on – so that the politicians understand that they will be unemployed after the next election, and maybe also put in jail. You have to explain to them that they will never be elected again! You must create new political parties that base their policies on respect for everyone's right to decide over their own and their children's bodies, political parties that fully stand for and protect human rights! You can start here, today. For example, you have a suitable presidential candidate in Judge Angelo Giorgianni. He is moral and responsible. That is why he has created the Organizzazione Mondiale Per La Vita.

Create a new citizen-based movement! The Italian people can reverse the current dark trend. Remember – the Italian people finally got rid of Benito Mussolini! Now, the Italian people needs to get rid of its political oppressors, one more time! Persuade all your countrymen not to vote for any of the parties now represented in the Italian Senate and Parliament! Create something new – by the people, for the people! Vote for something new – vote for the future of the Italian people!

Forza Italia!

Forza Italia per la libertà!
